```java
1  package herencia;
2
3  public class Main {
4
5      public static void main(String[] args) throws InterruptedException
6      {
7          // TODO Auto-generated method stub
8          Coche c1 = new Coche (4,"Sedán",15,"Safrane",2015,"UMA-19-11",'A');
9          c1.Prender();
10         c1.Avanzar();
11         System.out.println("Nivel Combustible: "+c1.nivelComb);
12         c1.Avanzar();
13         System.out.println("Nivel Combustible: "+c1.nivelComb);
14
15
16     }
17
18 }
19
```
